

IGCSE 0580 Extended 练习题

练习题

Q1 [3 marks]

Explain or calculate a result using fractions in the topic M1 Number. Show all working.

Q2 [3 marks]

Explain or calculate a result using ratio in the topic M1 Number. Show all working.

Q3 [3 marks]

Explain or calculate a result using percentage in the topic M1 Number. Show all working.

Q4 [5 marks]

Explain or calculate a result using standard form in the topic M1 Number. Show all working.

Q5 [5 marks]

Explain or calculate a result using bounds in the topic M1 Number. Show all working.

Q6 [3 marks]

Explain or calculate a result using expand in the topic M2 Algebra. Show all working.

Q7 [3 marks]

Explain or calculate a result using factorise in the topic M2 Algebra. Show all working.

Q8 [3 marks]

Explain or calculate a result using simplify in the topic M2 Algebra. Show all working.

Q9 [5 marks]

Explain or calculate a result using linear/quadratic equations in the topic M2 Algebra. Show all working.

Q10 [5 marks]

Explain or calculate a result using inequalities in the topic M2 Algebra. Show all working.

Q11 [3 marks]

Explain or calculate a result using function notation in the topic M3 Functions and graphs. Show all working.

Q12 [3 marks]

Explain or calculate a result using domain in the topic M3 Functions and graphs. Show all working.

Q13 [3 marks]

Explain or calculate a result using range in the topic M3 Functions and graphs. Show all working.

Q14 [5 marks]

Explain or calculate a result using transformations in the topic M3 Functions and graphs. Show all working.

Q15 [5 marks]

Explain or calculate a result using linear/quadratic/cubic/reciprocal graphs in the topic M3 Functions and graphs. Show all working.

Q16 [3 marks]

Explain or calculate a result using gradient in the topic M4 Coordinate geometry. Show all working.

Q17 [3 marks]

Explain or calculate a result using midpoint in the topic M4 Coordinate geometry. Show all working.

Q18 [3 marks]

Explain or calculate a result using distance in the topic M4 Coordinate geometry. Show all working.

Q19 [5 marks]

Explain or calculate a result using straight lines in the topic M4 Coordinate geometry. Show all working.

Q20 [5 marks]

Explain or calculate a result using parallel and perpendicular lines in the topic M4 Coordinate geometry. Show all working.

Q21 [3 marks]

Explain or calculate a result using angles in the topic M5 Geometry and trigonometry. Show all working.

Q22 [3 marks]

Explain or calculate a result using polygons in the topic M5 Geometry and trigonometry. Show all working.

Q23 [3 marks]

Explain or calculate a result using similarity in the topic M5 Geometry and trigonometry. Show all working.

Q24 [5 marks]

Explain or calculate a result using congruence in the topic M5 Geometry and trigonometry. Show all working.

Q25 [5 marks]

Explain or calculate a result using Pythagoras in the topic M5 Geometry and trigonometry. Show all working.

Q26 [3 marks]

Explain or calculate a result using reflection in the topic M6 Transformations and vectors. Show all working.

Q27 [3 marks]

Explain or calculate a result using rotation in the topic M6 Transformations and vectors. Show all working.

Q28 [3 marks]

Explain or calculate a result using enlargement in the topic M6 Transformations and vectors. Show all working.

Q29 [5 marks]

Explain or calculate a result using translation in the topic M6 Transformations and vectors. Show all working.

Q30 [5 marks]

Explain or calculate a result using vector addition and scalar multiplication in the topic M6 Transformations and vectors. Show all working.

Q31 [3 marks]

Explain or calculate a result using circle in the topic M7 Mensuration. Show all working.

Q32 [3 marks]

Explain or calculate a result using sector in the topic M7 Mensuration. Show all working.

Q33 [3 marks]

Explain or calculate a result using prism in the topic M7 Mensuration. Show all working.

Q34 [5 marks]

Explain or calculate a result using cylinder in the topic M7 Mensuration. Show all working.

Q35 [5 marks]

Explain or calculate a result using cone in the topic M7 Mensuration. Show all working.

Q36 [3 marks]

Explain or calculate a result using tables in the topic M8 Statistics and probability. Show all working.

Q37 [3 marks]

Explain or calculate a result using averages in the topic M8 Statistics and probability. Show all working.

Q38 [3 marks]

Explain or calculate a result using cumulative frequency in the topic M8 Statistics and probability. Show all working.

Q39 [5 marks]

Explain or calculate a result using histograms in the topic M8 Statistics and probability. Show all working.

Q40 [5 marks]

Explain or calculate a result using tree diagrams in the topic M8 Statistics and probability. Show all working.

Q41 [3 marks]

Explain or calculate a result using sets in the topic M9 Extended reasoning. Show all working.

Q42 [3 marks]

Explain or calculate a result using matrices in the topic M9 Extended reasoning. Show all working.

Q43 [3 marks]

Explain or calculate a result using variation in the topic M9 Extended reasoning. Show all working.

Q44 [5 marks]

Explain or calculate a result using iterative methods in the topic M9 Extended reasoning. Show all working.

Q45 [5 marks]

Explain or calculate a result using modelling in the topic M9 Extended reasoning. Show all working.
